

1036 Hubbard Street - Back Porch
Historic District Commission
June 5, 2025

The back porch was built in the summer and fall of 2020, at the peak of COVID-19 lockdown. It is a stand alone stick frame open air structure on footings, totaling 120SF. Approval from HCD was not pursued largely due to COVID. The porch is also not visible from the street nor attached to the house.
