The tiles on the garage are not uniform. They were salvaged from another house down the street when they switched to an asphalt roof. Some of them are not the same size. We would like the garage to match the rest of the house with new tiles. There are to few tiles remaining on the garage to warrant saving.

Ms Ross

Yes, I do want to replace them so the garage will match the house.

2 of the 3 sides have no tiles on them at all. I'll get you photos as soon as I can. I think I included some in the document I sent you before.

Hi Mr. Berk,

Can you send me a picture/few pictures of the garage so that (saved as pdfs) so that I/the Commission can see the condition of the tiles at that location? Do you want to replace them so that they have a look that is uniform with the house or are they, too, in poor condition? I will need a few more photos than those included in your application to clearly ascertain.

Thanks,

Jennifer Ross

Subject: [EXTERNAL] tile sample.

Ms. Ross,

I received the flat slab tile sample in brookfield green today. Here is a photo of both the roof field tile and the flat slab for the dormer siding.
