To Lise Saint James <Lise.SaintJames@detroitmi.gov>

Thanks, Lise!

Sorry for the delay, we took a quick long weekend vacataion.

I did hear back from the contractor and they are not willing to install the bluestone irregularly. He stated that by doing that there is more room for water to get in and pop up tiles. He also stated that if we did the geometric pattern it should allow for more holding strength and prevent tiles from popping up.

While walking our dogs in our neighborhood we did find multiple houses on Shrewsbury and Canterbury Rd in Sherwood Forest with similar stone tiles. I've attached some pictures showing how they have geometric stones for their walkway. Hoping this helps in showing that it still would fit the style of the neighborhood.

Thanks!

James
