Subject: [EXTERNAL] 460 West Baltimore Street - Fire Escape Removal

Please see the attached document

Good Morning,

I am writing to follow up on our previous outreach regarding the application submitted for restoration work at the College for Creative Studies building located at 460 West Baltimore Street.

We have contacted customer support and submitted all required information through the appropriate online channels. At this time, we are seeking clarification on the anticipated review timeline and when the application will be presented to the associated parties for consideration. Understanding this will allow us to properly coordinate preconstruction planning, scheduling, and resource allocation.

If there is an assigned staff member, preservation planner, or review coordinator managing this district or property, I would greatly appreciate being connected directly so we can ensure all requirements are clearly understood and addressed proactively. Our intent is to follow the documented process carefully and complete the restoration in full compliance with HDC standards.

Please let us know if there are any additional steps required on our end to facilitate review, or if any supplemental documentation would help move this forward.

Thank you for your time and assistance. I look forward to your guidance on next steps.
