

Scope of Work

All work is being performed as approved by COAs issued 3/18/21 (Application Number 20-7143), 3/31/22 (Application Number 22-7760) and 12/12/23 (Application Number 20-7143B)

Following the removal of the vinyl siding, the following scope was added:

1. Remove rotted wood and rebuild rear wall matching existing footprint and dimensions.
2. Restore existing wood windows matching style and size of original windows.
3. Install new lap siding and trim matching original design. Paint using previously approved colors.
4. Install new wood skirt matching original design and configuration. Paint using previously approved colors.
