REQUESTED INFORMATION

We have received your application, but it is not yet complete for review. Please provide additional details based on the comments and questions listed below. Should you need to attach additional files per this request, use the paperclip icons at the end of this form. You may attach up to (5) files per icon up to 25MB:

Thank you.

We understand that behind the neighbor's garage and along the rear property line, there would be the horizontal board fence. Along the north and east property lines and on the gate across the driveway, there would be vertical boards with lattice panels on top.

--What kind of fencing is proposed to remain that is between the house and the neighbor's garage (the fencing that begins near the southwest corner of the house and travels south and then west to the neighbor's garage)?

The original scope of work/ job description submitted with the application describes that 209' of existing wood fencing will be removed and 17' of chain link will be removed.

-----Can you please confirm that that 209' is accurate?

-----Regarding the 17' of chain link fencing that is proposed to be removed, is that chain link fencing within the yard (parallel to the west property line), or is it on the perimeter?

Thanks again.

APPLICANT RESPONSE

Response Date: 08/26/2026

The wood that is staying is his current 6' cedar fence as shown in the picture attached. We are tearing out 209' of fence installing an additional 104' of fence in the rear of the property. The 17' of chain link being removed is in the southwest corner of the yard where a new 17' of new 6' cedar is going in.
